

Mr. Duckett

Carl:

Ham and I talked to [REDACTED] at 1600 today regarding the CCPC paper on the ABM problem. Ted understood our position and agreed that it was desirable to prepare a note for [REDACTED] as Acting CIA Member of USIB that DD/S&T concurrence in this paper does not imply endorsement of all programs described therein. [REDACTED] was not certain that [REDACTED] would be able to brief the Director prior to the USIB meeting.
